

Don't it Make You Want to Dance?

Rusty Wier- done Jerry Jeff Walker style

I've been gone for so long, feels so good just to get back home
To the friends and the people I long to see
Like a rainbow in the sky, certain twinkle was in her eye
Telling me that I am everything they want me to be

Chorus:

Don't it make you wanna dance, don't it make you wanna smile
When you're down, down, down in the country PICK AND sing a while
Don't it make you wanna dance, don't it make you wanna smile
When you're down, down, down out in the country PICK AND sing a while

Don't it feel just right tonight, makin music and it feels just right
Gettin better with every single song
Hey look around everyone's a friend
Every single one has found a grin
When the chorus comes round everybody jump on

Chorus x3
